# HYSTER TRACKER

## WIRELESS ASSET MANAGEMENT

SEE THE BIG PICTURE. GAIN INSIGHTS. REDUCE COSTS.

# IMPROVE EFFICIENCY AND REDUCE COSTS WITH COMPLETE FLEET AND OPERATOR VISIBILITY

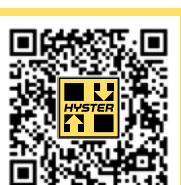

Leverage data-driven productivity and take your operation to the next level with Hyster Tracker wireless fleet management.

Interactive dashboards and reporting provide you with the insight you need to drive fleet efficiency, improve operation performance, reduce your carbon footprint and lower your overall materials handling cost.

Instant alerts notify you of critical events as they occur, helping you respond quickly to issues that could impact productivity.

Access the secure cloud-based portal from any internet-enabled device or use the mobile app to stay connected to your fleet on the move.

**WATCH THE EXPLANATION VIDEO**

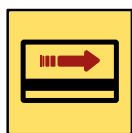

# IMPROVE SITE SAFETY AND OPERATION COMPLIANCE

Protect your people and assets by preventing unauthorised use of trucks and adhering to pre-shift checklist compliance.

Hyster Tracker encourages smooth truck operations and best practices which can provide you with valuable data to help you better understand operational issues.

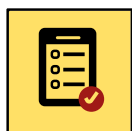

## Operator Access Control

The telemetry unit provides a record of user access for operators prior to truck start-up.

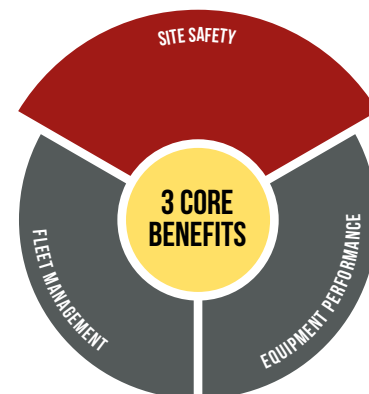

## Impact Detection & Shutdown

Advanced collision detection and real-time alerts improve fleet safety awareness and reduce damage. Impact shutdowns protect equipment from prematurely returning to operation following a critical impact.

## Pre-shift Checklists

Eliminate paper checklists and improve compliance with digital pre-shift checklists. Operators are all responsible to run through all required checks prior to truck start-up and operation.

# OPTIMISE EQUIPMENT PERFORMANCE

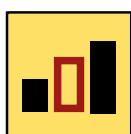

Address problems before they arise by monitoring equipment performance.

Hyster Tracker helps you streamline maintenance scheduling, conserve energy and reduce unnecessary equipment wear.

## Equipment Diagnostics

Maximise uptime with engine, transmission, hydraulic and electronic system alerts on Hyster equipment for quicker fault diagnosis.

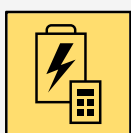

## Periodic Maintenance Tracking

Track and schedule maintenance to help service planning and minimise downtime.

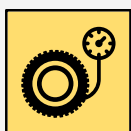

## Inactivity Shutdown

Conserve energy and lower costs by automatically shutting down any truck that hasn't been used within a specified amount of time.

## Add-on: Hyster Battery Fleet Management

Extend battery life and reduce maintenance costs with this standalone solution. Monitor battery usage, cycles, errors, and state of health in the Hyster Battery Fleet Management portal.

## Add-on: Hyster Tyre Pressure Management\*

Keep your pneumatic tyres at optimal pressure. Receive temperature and pressure alerts.

# ENHANCE FLEET MANAGEMENT AND WORKFORCE PRODUCTIVITY

Hyster Tracker provides data-driven insights to help you fine-tune your fleet size and composition so you can be sure you have the right equipment in place to keep your operation running as efficiently as possible.

Gain an understanding of operation behaviour and encourage improved operation performance. Hyster Tracker helps you identify high performing areas and processes that could be further optimised.

## Utilisation Analysis

Optimise workflows and boost productivity by understanding the strengths of your operators and equipment.

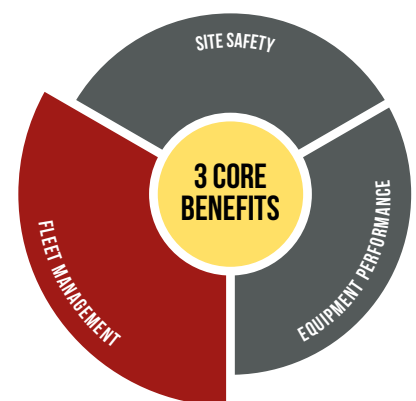

## GPS Location

Locate your outdoor equipment and see where impacts are occurring with GPS.

## Add-on: GPS Motion

Use outdoor location tracking to optimise routes and highlight bottlenecks.

# TRACK YOUR DATA IN REAL TIME

## STEP 1

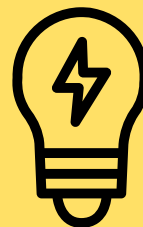

**Hyster Tracker** hardware records equipment data and automatically uploads it to cloud servers. Hyster Tracker can be factory-fitted to new Hyster equipment and retrofitted to existing equipment, including equipment from other manufacturers.

## STEP 2

**Hyster Tracker** delivers data via the cloud to your internet enabled device, wherever you are in the world.

## STEP 3

**Hyster Tracker** portal and mobile app provides secure access to user-friendly dashboards and reports on key metrics.

## DID YOU KNOW?

Hyster Tracker can also be installed on equipment of other brands

## PACKAGE OPTIONS

Select from four levels for a telematics offering tailored to your operation.
