J2.5-3.0XNL SERIES

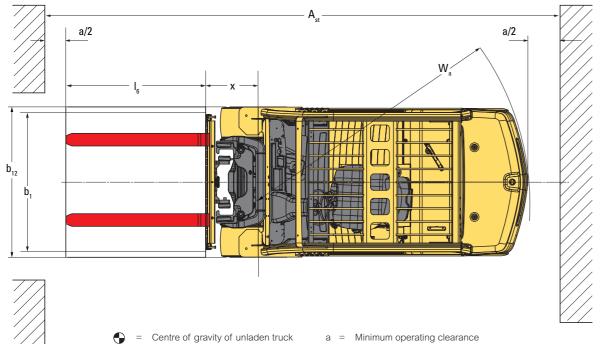

ELECTRIC FORKLIFT PRODUCT TECHNICAL GUIDE

TRUCK DIMENSIONS **J2.5XNL / J3.0XNL ADVANCE SPECIFICATIONS**

(VDI standard = 200 mm BITA recommendation = 300 mm)

I₆ = Load length

Ast = Wa + R + a (see lines 4.34.1 & 4.34.2)

 $R = \sqrt{(I_6 + x)^2 + \left(\frac{b_{12} - b_{13}^2}{2}\right)}$

1	10-1	Operating pressure for attachments		bar			55	
IJ	10-2 10-7	Oil volume for attachments (8)		I/min			-40	
ŀ		Sound pressure level at the driver's seat L _{pa7} (9)		dB(A)		6	67	

Add 34mm for ISS Carriage up to and including 2500kg capacity. Add 36mm for ISS Carriage for greater than 2500kg capacity
 Measurement from Ground to Bottom of Forks
 Add 666mm with LBR up to and including 2500kg. Add 583 with LBR for greater than 2500kg capacity
 fis subject to +/- 5 mm tolerance. Add 20mm with cab option. Add 104mm for battery side removal option. Add 124mm for battery side removal with cab option.

⁽⁵⁾ Full Suspension (FLM80) specified. Compressed condition. Add 40mm for nominal position.
Add 104mm for battery side removal option.
(6) Add 28mm with load backrest
(7) Standard performance, extended shift function turned on
(8) Maximum flow set through dash display.
(9) LPAZ, measured according to the test cycles and based on the weighting values contained in EN12053.
(10) 2LFL masts only

NOTE: To calculate truck capacities with alternative truck specifications NOTE: To calculate truck capacities with alternative truck specifications to the ones shown in the above tables, please consult your Hyster dealer. The rated capacities shown are for masts in a vertical position on trucks equipped with standard or sideshift carriage and nominal length forks. Masts above the maximum fork heights shown in the mast table are classified as high lift and, depending on the tyre/tread configuration may require reduced capacity, restricted back tilt or wide tread.

- Add 666mm with load backrest extension.
 Deduct 666mm with load backrest extension.
 Add 684mm with load backrest extension.
 Deduct 684mm with load backrest extension.
- (5) Add 583mm with load backrest extension.
- (6) Deduct 583mm with load backrest extension.
 (7) Add 601mm with load backrest extension.
 (8) Deduct 601mm with load backrest extension.

To calculate truck capacities with alternative truck specifications to the ones shown in the above tables, please use the World Wide Rating Program.

STANDARD EQUIPMENT AND OPTIONS

Specifications are affected by the condition of the vehicle and how it is equipped, as well as the nature and condition of the operating area. Inform your dealer of the nature and condition of the intended operating area when purchasing your Hyster® truck.

NOTICE:

Care must be exercised when handling elevated loads. Operators must be trained and must read, understand and follow the instructions contained in the Operating Manual.

NOTE: Specifications, unless otherwise listed, are for a standard truck without optional equipment. Specification data is based on VDI 2198.

All values are nominal values and they are subject to tolerances. For further information, please contact the manufacturer.

Hyster products are subject to change without notice.

Lift trucks illustrated may feature optional equipment. Values may vary with alternative configurations.

CERTIFICATION: Hyster lift trucks meet the design and construction requirements of B56.1-1969, per OSHA Section 1910.178(a)(2), and also comply with the B56.1 revision in effect at time of manufacture. Certification of compliance with the applicable ANSI standards appears on the lift truck. Performance specifications are for a truck equipped as described under Standard Equipment on this Technical Guide. Performance specifications are affected by the condition of the vehicle and how it is equipped, as well as by the nature, condition of the operating area, proper service and maintenance of the vehicle. If these specifications are critical, the proposed application should be discussed with your dealer.

Specification data is based on VDI 2198.

CE UK Safety: This truck conforms to the current EU, ANSI and UK CA requirements.
