(1) With load section lifted: -67mm. (2) See "Battery table". (3) These values may vary of +/- 5%. (4) Pedestrian version. For Stand-on version, front/rear are inverted. (5) Available 85 x 110mm tyre with single roller. (6) Forks raised - Ast = Wa + R + a Wa and R with forks raised. (7) If truck climbs ramps frequently (within 1h), consult your salesman. (8) Value referred to S3 5%.

CERTIFICATION: Hyster lift trucks meet the design and construction requirements of B56.1-1969, per OSHA Section 1910.178(a)(2), and also comply with the B56.1 revision in effect at time of manufacture. Certification of compliance with the applicable ANSI standards appears on the lift truck. Performance specifications are for a truck equipped as described under Standard Equipment on this technical guide. Performance specifications are affected by the condition of the vehicle and how it is equipped, as well as by the nature, condition of the operating area, proper service and maintenance of the vehicle. If these specifications are critical, the proposed application should be discussed with your dealer.
