

DON'T SETTLE FOR LESS POWER

Get the 80V Lithium-ion Advantage

THE POWER YOU NEED TO EXCEL

As operational demands continue to intensify, you need more power to push through – and you can't get that from just anyone.

With Hyster **4,500 – 7,000 lb. cushion tire trucks**, you not only get the ICE-like performance an 80V lithium-ion battery can provide, but the efficiency benefits of an electric truck.

THE HYSTER 80V LITHIUM-ION ADVANTAGE:*

- 28% faster lift speeds
- 10% greater travel speeds
- 10% faster acceleration
- 57% more gradeability
- 5% more truck efficiency

Whether you're looking to transition from ICE to electric and retain the same productivity benefits or make the move from lead-acid to lithium-ion – Hyster has got you covered.

Others don't have the maximum lithium-ion power you need for your 4,500 – 7,000 lb. cushion tire trucks. See for yourself.

- ✓ Hyster: 80V
- ✗ Toyota: 48V
- ✗ Raymond: 36V
- ✗ Crown: 48V
- ✗ Jungheinrich: 48V
- ✗ Unicarriers: 48V
- ✗ Mitsubishi: 48V
- ✗ CAT: 48V
- ✗ Linde: 48V

The lithium-ion power you need starts with Hyster.
