

E30-40AD

OVERCOME THE RIGORS OF UNLOADING AND PUTAWAY

The three-wheel stand-up forklift is built for the rigors and close-quarters of fast-paced unloading and putaway operations. It offers a range of features to fit performance, service and cost requirements, and it keeps the operator fresh, focused and productive all shift long.

WHAT SETS THE E30-40AD APART

| | |
|--------------------------------|---|
| VISIBILITY | Narrow mast channels, wide sightlines and a redesigned overhead guard improve forward and upward visibility. |
| ERGONOMICS | Spacious compartment with wide entry, low step height and multiple floor options reduces fatigue. |
| PERFORMANCE | Efficient hydraulics deliver fast lift/lower speeds, with optional high-performance hydraulics for added responsiveness. |
| TECHNOLOGY | Dynamic Stability System functions standard, with optional Hyster Reaction™ Advanced Dynamic Stability System for advanced assist. |
| TOTAL COST OF OPERATION | Extended service intervals, simplified maintenance access and durable components reduce downtime and long-term service costs for a more economical lifecycle. |

TAKE ON THE TOUGHEST JOBS WITH CONFIDENCE.
