

4,000 LB PNEUMATIC WITH INTEGRATED LITHIUM-ION TECHNOLOGY

Building Hyster trucks around a fully-integrated, space-saving lithium-ion battery is at the forefront of innovation. The strategic design helps free space in the operator compartment, maximizing comfort and convenience to help propel productivity.

Designed with trucking in mind, the optional trucker's mast meets application lift heights while helping minimize risk of trailer and bay damage.

OPEN SPACE DESIGN

- Maximizes comfort and convenience
- Open floor space for easy entry and exit
- Gives increased freedom to position feet during operation

MORE UPTIME

- Fast charging times - LESS THAN 1 HOUR*
- Dual Voltage system for true rapid charge capabilities
- Truck retains full suite of low state of charge safety features
- Battery warranty - 7 years/12,000 hours
- Truck requires either a PosiCharge ProCore or Ecotec Fast Charge Access

REPOSITIONED CENTER OF GRAVITY

- Enhances drive quality
- Improves truck handling in corners

* Requires 30kW Posicharge ProCore

WHY LI-ION?

ZERO MAINTENANCE:
NO MORE...

- Watering
- Acid
- Spills
- Fumes
- Cleaning
- Equalizing
