

# CUSHION TIRE **4,000**—**7,000** LB

PRODUCT BROCHURE

# S40-70A

# DISTINCTLY HYSTER®, BUILT FOR YOU.

Built on a scalable platform, the Hyster A Series can be easily configured to match your unique operational requirements. With a 4,000–7,000 lb capacity range and a heavy-duty, EPA-certified Yanmar 2.2L LPG engine, the Hyster S40-70A will raise the bar for what you expect from a lift truck in a wide range of applications and environments.

# DID YOU KNOW?

The scalable platform of the Hyster S40-70A allows each truck to be configured from the ground up to match a wide range of applications and environments.

#### **CONVENIENT ENTRY AND EXIT**

A large step and grab handle, contoured hood and flip up armrests help make it easy for the operator to get in and out of the truck.

#### SPACIOUS OPERATOR COMPARTMENT

Roomy operator compartment with ample floor space and a wide range of seat adjustment helps the operator to find a comfortable position, stretch their legs, and stay comfortable for long shifts.

#### **EXCELLENT VISIBILITY**

A low dash and wide mast window provide excellent visibility through the mast, enhanced visibility of fork tips and load when picking at height, and excellent visibility when traveling forward.

#### DYNAMIC STABILITY SYSTEM (DSS)

An innovative, maintenance-free system that promotes operating best practices by implementing truck performance limitations to help minimize forward and sideways tip-overs.<sup>1</sup>

#### HEAVY-DUTY INDUSTRIAL YANMAR ENGINE

Utilizes a heavy-duty EPAcertified Yanmar 2.2L LPG engine designed with extended preventive maintenance service intervals for continuous, heavy use.

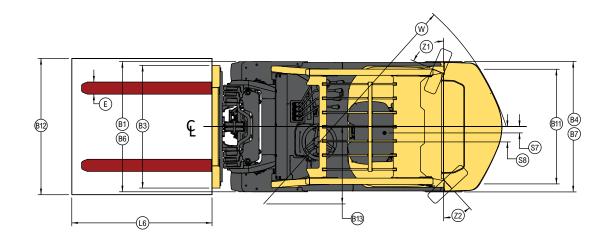

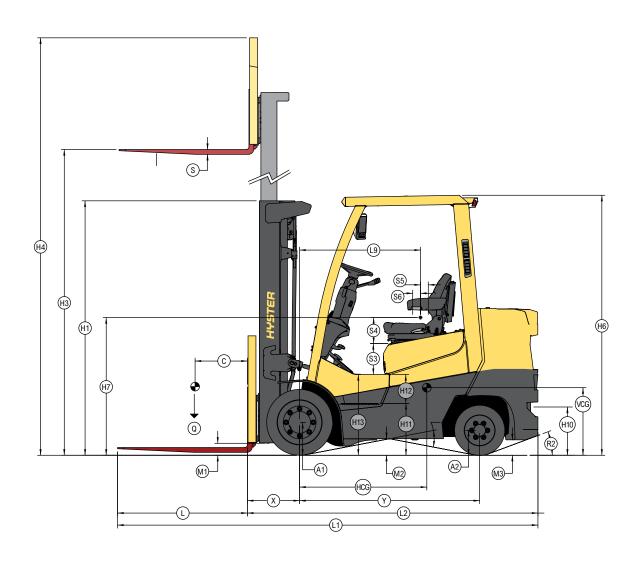

#### DEPENDABLE HIGH PERFORMANCE TECHNOLOGY

Engineered with a reliable, aluminum transmission and robust steer axle with tapered roller bearings to help minimize downtime and simplify service.

<sup>1</sup> While lift truck systems support safe operation and help minimize the potential for tip overs, proper operation of the lift truck and 100% full-time utilization of the truck's seat belt are the primary and best means of keeping the truck and operator upright and safe. Refer to the operator and service manuals for proper operation and maintenance.

**NOTE:** Above specifications, unless otherwise listed, are for a standard truck without optional equipment. RL = Rated Load NL = No Load [1] Add 1.4 in. (35mm) to S40-55A or 1.1 in. (28mm) to S60-70A when equipped with Integral Sideshifting Carriage.

**CERTIFICATION:** Hyster lift trucks meet the design and construction requirements of B56.1-1969, per OSHA Section 1910.178(a)(2), and also comply with the B56.1 revision in effect at time of manufacture. Certification of compliance with the applicable ANSI standards appears on the lift truck. Performance specifications are affected by the condition of the vehicle and how it is equipped, as well as by the nature and condition of the operating area. Specifications are subject to change and the proposed application should be discussed with your authorized Hyster Company Dealer.
